

NORTH EAST ENGLAND WORKS.

North East England is a premier location to do business.

As one of the UK's fastest growing economies, our highly skilled flexible workforce coupled with our connectivity to global markets and low cost base is a powerful combination. Invest North East England offers a free soft landing service designed to make it easy for new investors wanting to establish a presence in North East England. Our team can provide support and impartial advice on a range of topics including property, finance, business and skills issues making it easy for businesses to locate and grow in the region.

In order to support your expansion or relocation to North East England, Invest North East England can help to provide free or subsidised managed office accommodation, while you establish your business.

We can also make introductions to a range of professional service providers who can offer a bespoke package of support to help with your legal, financial and recruitment requirements.

LARGE AND GROWING BUSINESS BASE

CONNECTED BUSINESS HUB

Office Accommodation

North East England offers a vast array of office accommodation options including Grade A city centre locations, managed business centres, collaborative working space and innovation incubators.

We can assist you in your property search and identify a suitable location for your company, specific to your needs.

Our dedicated team, working alongside our Local Authority partners, can offer risk free accommodation in a range of managed business centres.

Some of these centres may include financial incentives such as rent-free periods and business rate relief (subject to companies meeting eligibility criteria).

Typically, offices in these locations will include:

- Broadband and telephone connections
- Fully-staffed reception
- Car parking
- 24 – hour access
- Access to meeting rooms
- Flexible 'easy in-easy out' terms

In addition, working alongside our Local Authority partners, we can offer short-term free desk space at a number of business locations, designed to help you through the set up and transition to your permanent office accommodation.

Professional Services

Our range of professional service providers and Local Authority partners all have experience of working with inward investors and have supported the expansion and relocation of some of the largest businesses in the region. Our team has close working relationships with key organisations in the professional services sector to ensure inward investors connect with the right organisations for a smooth transition in to North East England. We can provide introductions to a range of professional service providers including:

Recruitment Services

We understand that finding the right staff for your business is one of the most pivotal factors to consider before locating in a new area. We have relationships with key recruitment agencies, who operate across all sectors, to ensure the right staff can be identified.

Accounting Services

We can introduce you to a range of leading private sector accounting providers who can offer advice and guidance on access to finance and taxation as well as support on book keeping and HR.

Legal Services

There are many sides to commercial law and here in the North East of England, we are home to a number of leading legal firms, ready and able to ensure your investment is a success.

Business Networks

The region benefits from an excellent cluster of business networks of like-minded professionals across a range of sectors. Our team can help introduce your company to world-leading centres of excellence, cluster groups and business development networks.
