

TYNE  POWERED

GLOBAL BUSINESSES POWERED BY THE TYNE

Shepherd Offshore is one of the region's leading service providers and developers, operating and supporting world-class manufacturing within the North East of England. Based on the North bank of the River Tyne, Shepherds Offshore is energising industry to support local, regional and global businesses.

Shepherd Offshore facilities are a unique offshore and marine cluster, with significant capacity and capability based within 200 acres on the River Tyne. Shepherds Offshore has over 2000 meters

of deep-water quayside frontage with significant infrastructure and support services available.

For over 40 years, Shepherd Offshore has made a significant contribution to the continued growth of the offshore and energy sector along the River Tyne. As a developer it has remediated over 100 acres of land and constructed over 450,000 square feet of bespoke world class facilities over the last 10 years. Annually its facilities service over 100 vessels a year, assisting world class manufacturing companies and their supply chains.

IT'S A POWERFUL PARTNERSHIP

"We'll continue to support and create unique offshore and marine clusters on the Tyne through responsible remediation and partnership with all our stakeholders."

CHARLES SHEPHERD,
MANAGING DIRECTOR, SHEPHERD OFFSHORE.
